The DIETITIANS OF CANADA PAST CONFERENCE SPONSORS AND EXHIBITORS (to name just a few)

The most outstanding exhibitor listed on the www.dietitians.ca website is **Dow Agroscience**: a wholly owned subsidiary of the Dow Chemical Company specializing in not only agricultural chemicals such as pesticides, but also seeds and biotechnology solutions. And many GMO friendly companies attend as well: Kellogg Canada, Nestle Canada, PepsiCo Canada, McCain Foods, Mead Johnson Nutrition (GMO filled Similac baby formula) Canadian Sugar Institute, Campbell Company, Maple Leaf Foods, Pfizer Consumer Health Care, Becel Centre for Health, Beer Canada, Johnson & Johnson, Hydration Pharmaceuticals, General Mills and Subway.

Also **Abbott Nutrition** which markets **Ensure**: a doubtfully nutritious drink containing primarily Water, Sugar, Corn Maltodextrin, Milk Protein Concentrate, Blend of Vegetable Oils (Canola, Corn), Soy Protein Isolate, etc.

Interesting that the participating exhibitors of the Dietitians Association of Canada conferences are companies that align themselves with companies that have earned their wealth from providing us with chemical infused dining and genetically modified portions. A cynical toast to the darker side of 'mainstream' health. Cheers!

Here is the list of companies and brands that are either owned by Monsanto, or are known to use genetically modified seeds sold by Monsanto.

A Quote from Ocean Spray: "The use of genetically modified (GM) ingredients is not only safe for people and our planet, but also has a number of important benefits."

The BIG 6, pesticide and GMO corporations are **BASF, Bayer, Dupont, Dow Chemical, Monsanto, and Syngenta**. They are so called because they dominate the agricultural input market: that is they own the world's seed, pesticide and biotechnology industries.

"These are the apocalyptic perpetrators of the earth's final nightmare." 'N' from ELEMENTal KNOWledge
